

ORIGINAL FUELSCOOP

WHERE IT ALL STARTED!

The original Fuelscoop was a revolution in the Australian transport industry when it was developed and released to the market in the early 1980's.

Not only was it a great idea; when tested by Australia Post, Linfox and many other transport clients it was found to be most effective in improving efficiency particularly in rigid truck (straight truck) applications. On road experiences for over three decades have demonstrated fuel saving between 7 and 15%, with lower results recorded on smaller cabs pulling articulated trailers and the higher results being evident on rigid applications.

Today the original Fuelscoop is seen as an introductory level device, where clients choose the original Fuelscoop usually for older applications, or trucks that do not have factory installed roof mounting points (usually American conventional trucks, such as Mack, Freightliner, Western Star and Kenworth).

FUELSCOOP

KEY FEATURES

- ▲ **Made in Australia**
- ▲ **Proven effective**
 - Fuel Savings 7-15%
 - Improved handling
 - Better road speed
- ▲ **Versatile**
 - Fits all trucks
 - 2 heights
 - 3 widths
- ▲ **Reliable**
 - No specific load points
 - Load spread around base
 - Rubber protects scratching
- ▲ **Deflection characteristics**
 - Three way air deflection
 - Over deflection for when body is high & wide
 - No air turbulence under product
- ▲ **Quality finish**
 - Gloss white gelcoat finish
 - No need to paint
 - Very easy to paint if needed

PRODUCTS

Designed to work. Made to last.

ORIGINAL FUELSCOOP

TECHNICAL INFORMATION

After it was developed, the original Fuelscoop was then, in 1983, subjected to wind-tunnel analysis at the RMIT (Royal Melbourne Institute of Technology) with results confirming that Fuelscoop was without any doubt effective in reducing drag and thereby lowering fuel consumption...

Part No.	Dimensions
01001 Original Fuelscoop	760mm(H) x 1430mm(W) x 760mm(D)
01002 Original Fuelscoop	910mm(H) x 1430mm(W) x 760mm(D)
01003 Original Fuelscoop	760mm(H) x 1640mm(W) x 910mm(D)
01004 Original Fuelscoop	910mm(H) x 1640mm(W) x 910mm(D)
01005 Original Fuelscoop	760mm(H) x 1930mm(W) x 910mm(D)
01006 Original Fuelscoop	910mm(H) x 1930mm(W) x 910mm(D)

Fitting

Fitting the versatile Original Fuelscoop is more labour intensive than the new style Fuelscoop. It is designed for older trucks, and truck cabs that don't have factory fitted roof mount

Even though in most cases the Original Fuelscoop will be mounted where there are no specific points, due to its base being profiled to the roof shape, the load is spread along the total base area thus eliminating any specific stress points. Fitted correctly the Original Fuelscoop will never cause roof damage!
